

What to do during a bombing raid:

- If you hear the sirens - run to cover.
- If you're near your house - run to it.
- If you're far away - go to an air raid shelter.
- Follow the directions from an ARP (air raid precaution).
- If it's dark then you need to look for the blue lights.
- If you're in your car and the sirens go off - turn off the lights and get out of your car.

What to do during a gas attack:

- In the event of a gas attack you will be warned by an ARP with a gas rattle.
- You should buy your children a Mickey Mouse gas mask.
- ALWAYS put your child's gas mask on first.
- Always keep your gas mask with you-day and night.

How to protect your home:

- If you have a garden than you should buy a Anderson shelter
- If you don't have a garden than you should by a Morison shelter which goes under your table
- To prevent your windows from smashing you should put tape across your windows
- Always have your gas off during an air raid to prevent fire.
